Sprint 1 Report

Team Name: The Gifters
Revision 1 (1/26/2021)

Actions to Stop Doing:

We want to stop having 2 hour working meetings on Thursdays because we have a 1-hour meeting with the TA before the working meeting. A 3-hour-long meeting was a bit long to have, so we changed our working meeting on Thursdays to be 1-hour after our 1-hour meeting with the TA.

Actions to Start Doing:

We want to have 1-hour working meetings on Sundays after our 15 minute stand up because we stopped having 2 hour working meetings on Thursdays. We are basically taking that second hour from Thursday and moving it to Sundays.

During the Scrum standup, frame *To Work on Before Next Meeting* as a specific goal of what you want to have accomplished before the next Scrum standup (due date).

Start communicating more on discord once we get something done/completed.

Update Trello Board at the end of each Scrum meeting, identify what is in-progress and tasks that are still in the queue.

Pair up more to keep each other accountable. Currently, four of us are working on the frontend, so we should start splitting off to learn more about the backend.

SCM: Use a different Git branch for each user story to avoid merge conflicts.

Keep track of working hours and due dates on Trello. Don't have to think about how long we spent working when filling out Work Completion Rate section for the sprint report.

Actions to Keep Doing:

Having working meetings where developers can work with each other on tasks and demo their work so other developers can learn about the implementation and apply it to their tasks.
